Department Description

The ITS organization supports Atradius' transformation journey in partnership with the whole Atradius organization, steering business change through innovation and new developments in information technologies and process improvement. The Business Work Program's project management team has a client and business-oriented mindset, deeply understanding the challenges to overcome to successfully deliver value to the organization. The team works closely with demand and portfolio management, and with the project teams (developers, product owners, business analysts, architects, etc.) to achieve the desired benefits realization through the project implementation.

Job Description

As an Expert Project Manager at Atradius, you will lead and deliver high-impact projects, providing advance expertise in project execution and stakeholders management, optimizing practices, mentoring other project managers and creating a collaborative environment within the project team. You will also be responsible for compliance with the PPMO framework.

In this position your key responsibilities will be:

- Manage complex projects (including several work streams) with high business impact.
- Drive project governance and organizational capability development.
- Lead cross-functional teams and mentor less experienced project managers.
- Identify, manage and escalate critical dependencies, risks and issues to leadership (when required).
- Ensure projects deliver maximum business value in time and manner, without exceeding the budget allocated.

The ideal candidate will have the following qualifications:

- Degree in Business, Management, Engineering, or a related field.
- Extensive experience in project management.
- Excellent understanding of PPMO frameworks.
- Communication and collaboration skills with multidisciplinary teams.

Optional qualifications:

- Advanced certification in Project Management.

Top 5 main activities:

- Design and govern execution frameworks and methodologies for managing complex projects with several workstreams.
- Oversee and coordinate cross-project interdependencies and risks, resolving conflicts proactively and ensuring time and manner execution.
- Manage senior-level stakeholder expectations and drive stakeholder accountability securing commitments.
- Evaluate and improve project processes continuously.
- Mentor and support project teams for execution excellence, facilitating best practices in delivery and quality assurance.
- Collaborate with the Portfolio Management team for progress reporting and cross-dependencies management.

Top 7 SFIA skills:

- Project Management (PRMG, Level 6).
- Stakeholder Relationship Management (RLMT, Level 6).
- Business Risk Management (BURM, Level 6).

- Change Implementation Planning and Management (CIPM, Level 6).
- Governance (GOVN, Level 6).
- Financial Management (FMIT, Level 5).
- Problem Solving (PBMG, Level 5).

What do we offer?

- A dynamic, international and challenging work environment
- Training and support to reach your full potential including the opportunity for continuous professional development
- Attractive terms and conditions, including competitive salary, pension package and a range of flexible benefits and rewards
- Challenging tasks with individual development and training opportunities

Equal opportunities for all

The success of our organisation stands with the quality of our people and the ideas they have. Insights and innovative solutions for our customers are the result of an interplay of cultures, knowledge and experience. That is why diversity is extremely important to Atradius. To ensure that all colleagues within Atradius can develop their qualities, we promote an inclusive culture in which everyone feels involved and valued. We encourage and welcome everyone to apply to our positions.
