

System Analyst – Risk

Atradius

The Atradius Group provides trade credit insurance, surety and collections services worldwide, and has a presence through 160 offices in 52 countries. The products offered by Atradius protect companies around the world against the default risks associated with selling goods and services on credit.

At Atradius, we believe in personal development and the Growth Mindset. Our Culture is based on teamwork, reliable accountability, constantly improving and unrivalled service. Read on more on our Career site: <https://careers.atradius.com/en/careers>.

About the Role

System Analyst with extensive experience designing, enhancing, and supporting mission-critical applications built on **PL/SQL**, **COBOL**, and mainframe technologies. Proven ability to translate business needs into scalable technical solutions, streamline data flows, and modernize legacy systems without disrupting operations. Strong background in system integration, performance tuning, and end-to-end SDLC support. Recognized for clear communication, analytical depth, and the ability to collaborate effectively with cross-functional teams, stakeholders, and developers. Adept at working in high-availability environments, especially within banking, insurance, and large enterprise ecosystems.

What You'll Do

System Analysis

- Collaborate with internal teams and external partners to perform System analysis .
- Analyse current systems and workflows to identify opportunities for improvement.
- Translate business needs into clear functional and technical specifications.
- Support testing, validation, and rollout of new integrations and enhancements.
- Monitor performance of interfaces and assist in resolving issues.
- Serve as a point of contact for partner inquiries, providing first-level support and coordinating with technical teams when needed.
- Track progress and ensure alignment with service expectations.
- Maintain and promote positive relationships with partners through clear communication and responsive support.

What You Bring

- Strong background in system integration, performance tuning, and end-to-end SDLC support.
- Recognized for clear communication, analytical depth, and the ability to collaborate effectively with cross-functional teams, stakeholders, and developers
- Up to 5 years of experience in System analysis.
- Good understanding of PL/SQL, COBOL and Oracle Forms.
- Good understanding of ALTOVA tool.
- Strong communication skills and a collaborative mindset.
- Analytical thinking and attention to detail.
- Proficiency in Azure Products (Boards, DevOps), Microsoft Office and basic data tools (Excel, Power BI, etc.).

Nice to Have

- Familiarity with Agile/Scrum methodologies.
- Exposure to support or ticketing systems (e.g., ServiceNow).

What We Offer

- A welcoming and inclusive workplace where your ideas matter.
- Opportunities to grow your skills and career in System analysis and customer engagement.
- Exposure to international B2B operations and digital transformation projects.
- Competitive compensation and benefits.

Equal opportunities for all

The success of our organisation stands with the quality of our people and the ideas they have. Insights and innovative solutions for our customers are the result of an interplay of cultures, knowledge and experience. That is why diversity is extremely important to Atradius. To ensure that all colleagues within Atradius can develop their qualities, we promote an inclusive culture in which everyone feels involved and valued. We encourage and welcome everyone to apply to our positions.
